PROFESSIONAL SUMMARY

Full-stack engineer building TypeScript web applications with React, Next.js, Node.js/NestJS, and PostgreSQL. Currently intern at CyberPeak shipping multi-tenant SaaS, AI-agent workflows, RBAC, and third-party API integrations; prior freelance client delivery and Capgemini Exceller Edge Fellowship training in Java/Spring Boot and React.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, SQL
Frameworks: React, Next.js, Node.js, Express.js, NestJS, Spring Boot, FastAPI, Prisma, Tailwind CSS
Databases: PostgreSQL, MongoDB
Tools: REST APIs, Docker, GitHub Actions, Jenkins, OAuth 2.0, JWT, RBAC, Zod, LangGraph, Redux, Redux Toolkit, RTK Query, TanStack Query, Hibernate, Git

PROFESSIONAL EXPERIENCE

CyberPeak IT Solutions Kolkata, India
Junior Full-Stack Developer Intern May 2026 – Present

- Owned PlanQuill’s AI project-planning module end to end: LangGraph setup/ops agents, OpenRouter LLMs, pg-boss jobs, SSE, and an apply path that writes epics/tasks/dependencies to tenant boards after cycle checks inside a multi-tenant Next.js/Express/Prisma SaaS with RBAC and Docker/NGINX/CI deploy.
- Built human-in-the-loop planning (questionnaires, story/task approval, PDF ingest) so AI-generated backlogs are reviewed before any board mutation.
- Implemented bidirectional Google Calendar sync for a NestJS/Prisma booking marketplace across 3 role portals: OAuth connect, AES-GCM token storage, webhook watch channels, incremental syncToken, and booking create/update/delete mirroring.

Freelance Remote
Full-Stack Developer Aug 2022 – Dec 2025

- Delivered full-stack client apps end to end over 3+ years, owning requirements, UI, APIs, data modeling, and deployment with Next.js, Node.js/Express, PostgreSQL, and MongoDB.
- Shipped auth, RBAC, admin dashboards, CMS-backed content workflows, and third-party API integrations across multiple client engagements.

PROJECTS

Fusion Ticket Bot Dashboard | Next.js, Prisma, PostgreSQL, Discord OAuth GitHub

- Built a multi-guild Discord ops dashboard with Discord OAuth (better-auth), Admin/Moderator/Spectator RBAC, guild-scoped Server Actions, Zod validation, and Discord REST integrations for guilds, channels, and roles.
- Designed a live Discord-embed editor with preview and a Prisma audit-log interceptor with JSON diff viewer so staff can configure 6 ticket panel types and review config changes safely.

Snippy | Next.js, Prisma, MongoDB, better-auth GitHub

- Built a URL shortener with session-gated dashboards, custom/nanoid slugs, bcrypt password protection, expiring links, per-key Open Graph metadata, and QR code generation.
- Implemented country- and OS-based redirects (geoip-lite, ua-parser-js) plus click analytics that store IP/UA/country/device and aggregate 7-day activity and top links.

AI Stock Agent | Next.js, Groq, Yahoo Finance GitHub

- Built a streaming NSE/BSE research chat agent (Groq Qwen3-32B) with 6 Zod-validated tools for live quotes, fundamentals, news sentiment, index snapshots, and comparisons, plus SMA/RSI analysis cards and structured-output fallbacks.

CERTIFICATIONS & TRAINING

Capgemini Exceller Edge Fellowship Program Kolkata, India
Analyst A4, Software Engineer Trainee Jan 2026 – Jul 2026

- Completed two-phase training: Java, Spring Boot, PostgreSQL, Hibernate, JUnit, and Jenkins backend track, then React, Redux, and TanStack Query frontend track.

EDUCATION

Institute of Engineering & Management Kolkata, India
Master of Computer Applications 2024 – 2026

Netaji Mahavidyalaya Arambagh, India
B.Sc. Computer Science 2021 – 2024
